ALPHABET WHEEL

Y Z A W What's the Brst word in the sequence? There is only one correct answer. Note that each word has a rare property. Finally, while there is only Valid Starting word, the other words have alternatives. ERROR wild be replaced with RARER and FLUFF with OFF. G H 2. FLUFF 3 LULL 4. ERROR M L K N

ALPHABET WHEEL (SOLUTIONS) W What's the Brst word in the sequence. There is only one correct answer. Note that each word has a rare property. Finally, while there is only Valid Starting word, the other words have alternatives. ERROR could be replaced with RARER and FLUFF with OFF. I PIZZAZZ 2. PLUFF 3 LULL 4. ERROR

Reasoning: Each word has the special property of having more than half of its letters be the <u>Same</u> letter, e.g. Lull has 3 l's and 4 to the letters. The same letter in each word comes 6 letters in the alphabet after the previous word in the sequence, implying the first word must be majority 2's. The only such word is pizzazz.
