

PATHS

Fill in the empty letters such that words read horizontally and the path each ♂ takes to his matching ♀ spells a word. Each ♂ can move in any bordering/diagonally bordering cell, and takes a path of 5 letters.

Note that each ♂ starts on the letter it is above and finishes on the letter his matching ♀ is below.

All empty spaces will be traversed by a ♂, and some ♂ have a word associated with their path.

Hint: the colors aren't random
